

# AddonSoftware™

## The Freedom to Grow™

AddonSoftware™ is a cost-effective, full-featured and fully integrated software system for manufacturers, distributors, and for general accounting. AddonSoftware Version 7 is the result of more than 20 years of continuous improvement – additional features, increased functionality, and updated technology. The system is easy to learn and easy to use, providing efficiencies and savings to over 4000 businesses in the United States. These business owners are free to focus on making their business grow, rather than thinking about their Information Technology processes.

Some important features of AddonSoftware:

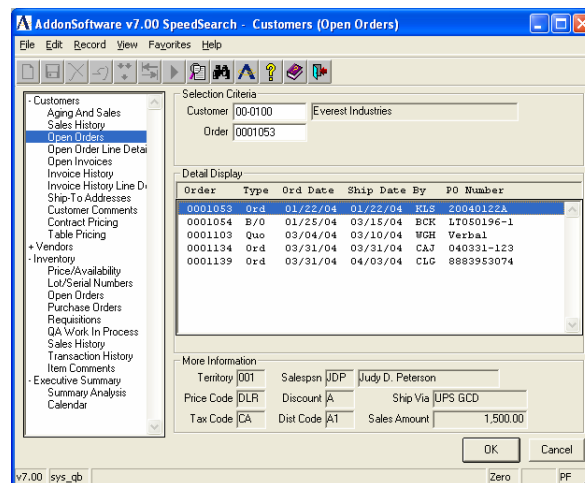

- Source code for applications included at no additional charge
- Includes both Graphical and Character interfaces with the same set of programs
- Feature set includes multi-company processing and consolidation, multiple budgets, multi-warehouse inventories, comprehensive lot and serial number tracking, on-line help, and many other important features
- Ability to output reports and documents to fax, email, HTML, Adobe® PDF both on the fly and pre-set
- Ability to save reports for later printing or on line review
- ODBC and JDBC compliant database for report writers

- Prints laser forms, including checks and even custom reports
- Electronic document & report storage with HTML & PDF documents
- Direct connection to MS Excel® or other spreadsheets for “instant reporting” of customer-selected reports (e.g. sales reports & financial reports)

The applications are feature-rich, mature, and proven. They are easily customized and enhanced as desired by the customer. Many add-ons are also available that further enhance your system such as web integration, integration with shipping systems, etc.

*SpeedSearch™* is a secure data inquiry feature that can be activated at any time from any location on the screen without leaving your current task. It allows you to inquire into virtually any information in the system, including:

- Customer information
- Sales Orders
- Historical Invoices
- Vendor information
- Purchase Orders
- Inventory information
- Item Availability information
- And the popular Executive Summary, which provides an up-to-date snapshot of important company information at the click of a mouse

❑ **Administrator**

SpeedSearch™ immediate data inquiry  
Print/save reports to screen  
Print Preview  
Security and confidentiality  
Single/multiple co. processing  
Capture screen images

❑ **Accounts Payable**

Enter/process invoices any time
